**See Your New Bathroom
Before You Renovate . . .**

. . . With our new 3D Bathroom Visualisation Service.

Take the Guesswork Out of Renovation.

Renovating a bathroom can feel overwhelming -
will it look the way you imagine?

With our 3D Bathroom Visualisation Service, you'll see your
bathroom renovation brought to life... before you spend a cent.

As part of our **Select Sale**, you can experience our
3D Bathroom Visualisation Service for FREE - until December 15.

How our 3D Bathroom Visualisation Service works

Step 1: You provide the key information about your bathroom.

You can do this yourself by simply following the instructions in the form on our website, and provide us with details of your bathroom - including key measurements, photos and your preferences in terms of style, function, inspirations and budget. Establishing your budget at the outset is important so our Armanti team can ensure your 3D bathroom visualisation will be achievable and meet your expectations.

Step 2: We review your information and clarify any final details.

Before we start the 3D visualisation of your dream bathroom we review your information and contact you for clarification of any key points or issues.

Step 3: We prepare your 3D bathroom visualisation.

Based on all the the information you provided, we prepare your 3D bathroom visualisation and send these to you together with details of the Armanti bathroom products featured in your visualisation and their prices.

Step 4: We can then help you finalise your bathroom package.

With over 35 years of experience in the building and renovation industry, Armanti is the trusted choice. Our expertise ensures you have everything you need to communicate clearly with your tradespeople and bring your old bathroom back to life.
